

Spring 2011

Dear Parents,

Summer is rapidly approaching and camp registration is already underway, so there is no better time than now for me to invite your child to participate in our tenth annual junior golf school.

The school is a wonderful way to introduce a child to the great game of golf. The proven teaching method of grip, aim, stance and posture (G A S P) allows golfers to develop a solid swing foundation. The system is also a great way for golfers to advance their education and skills within the game. The philosophy we teach will follow golfers for the rest of their lives.

During the 3 day classes, we strive to make the golfing experience fun by incorporating a variety of competitive contests while focusing on teaching the fundamentals of the game of golf. Returning for their eighth and fifth years respectively are our experienced and popular instructors, John Petrie and Steve Heckman.

We have scheduled our annual Junior Golf School Outing for Saturday, August 20th, 2011. All 2011 attendees are welcome to participate, and new for this year - parents will be able to play with their junior golfer. We are certain the parent-child better ball format will make the event more enjoyable for everyone as well as help to forge a lifelong family bond for the love of the game.

I hope to see you this summer.

Sincerely,

Vin Ciarlone
PGA Professional
